EMERGENCY PROCUREMENT

SUBJECT: Radio Frequency (RF) BDA-Based Signal Booster System at Dominion High School

BUYER: Donald R. Legg, CPPO, Assistant Purchasing Agent

CONTRACTOR: Mann Wireless, Ltd.

This procurement is being handled as an Emergency due to the following emergency situation:

Dominion High School is currently under construction with a scheduled opening on August 25, 2003. The BDA system, which will provide radio communication access, is to be provided by the County. It is imperative that the School Resource Officer have radio access in case of emergencies when school opens. Due to the nature of the construction it was determined that the work should be done prior to school opening. Based on the critical need for communication by the Resource Officer and the estimated lead time for the equipment staff has determined this to be an emergency.

The contractor was selected on the following basis.

Request For Quote No. 008 was issued to six possible providers. The County told the bidders they would consider all factors including system cost and ability to install the system by the August 23, 2003 deadline. Four quotes were received and are tabulated as follows:

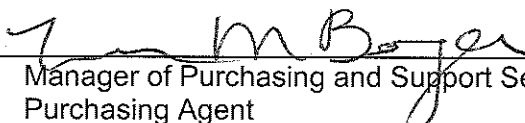

<u>Firm</u>	<u>Cost</u>
Mann Wireless, Ltd.	\$ 69,957
GPD Telecom, Inc.	\$ 72,496
Morcom International, Inc.	\$ 81,137
Teltronic, Inc.	\$128,649

Mann Wireless, Ltd. provided a responsive quote meeting all the requirements including delivery time. Therefore, staff awarded a contract for the Radio Frequency (RF) BDA-Based Signal Booster System at Dominion High School in the amount of \$69,957.

The contract was (or will be) awarded on July 24, 2003
